TUESDAY 17 OCTOBER, AMERICA SQUARE CONFERENCE CENTRE, LONDON

SAP Database & Technology User Show

TechSelect2017

+ SAP ASE 16 SP03 Launch Party

- Overview of exciting new features in latest release of ASE 16
- Detailed look at SAP Advanced SQL Migration tool
- Security, how ASE operations at SAP IT are managed
- Focus on XOLTP requirements and solutions
- Exclusive access to the latest product roadmaps
- Learn great tips and techniques from world class engineers
- Meet key SAP partners and staff in the exhibition hall
- Get more value from your SAP Products

BOOK NOW for TechSelect London 2017 and spend the day with all the key players in the SAP Database & Technology world. Hear from world-class speakers and engineers, learn what the experts already know and get great tips and techniques.

This year, we are excited to include the SAP ASE 16 SP03 LAUNCH PARTY. A great opportunity to invite your managers to join the event and hear about the impressive new features in the latest release of ASE 16 to enable extreme transaction processing while supporting the next generation of OLTP applications. During the party you will get an overview of the latest solutions to integrate processing of ASE with SAP HANA along with new cloud deployment scenarios supported with ASE 16 plus a look into planned enhancements.

WHY SHOULD I ATTEND?

Taking time to get out of your regular workspace and environment will refresh your mind, give you new ideas and bring you up to date on all that is happening in and around SAP's Database & Technology products.

You will speak to top engineers, meet key partners in the exhibition booths, network with fellow professionals, learn current strategies and get in-depth technical training on a wide range of SAP products learning first-hand from experts including some of the principal software engineers responsible for creating them.

"I send a couple of people from my department every year – the knowledge they share afterwards is invaluable"

WHAT PRODUCTS ARE COVERED?

This is a two stream event covering key information for SAP ASE, SAP IQ, SAP Replication Server and SAP HANA – the in memory database offering.

[See agenda overleaf for full details.](#)

WHAT WILL I COME AWAY WITH?

- Exposure to latest techniques and technologies
- Latest information about innovative new product features and enhancements
- Answers to technical problems direct from world class engineers
- Key information and ideas to assist you with your IT planning
- New technical knowledge from networking with members who will share their vast experience of SAP's database products and their deployment
- Key contacts from both SAP's experts and other user organisations
- Recent knowledge to share with your team

"A unique opportunity to further your professional development"

UKSUG
SAP DATABASE & TECHNOLOGY USER GROUP

"TechSelect provides a huge reservoir of accumulated knowledge; tap into it and benefit from the experience of others"

EVENT ATTENDANCE FEES

UKSUG Members: No charge
Non Members: £189 + VAT*
*Includes a year's membership of UKSUG

For more information about UKSUG and the benefits of membership click here. uksug.com

TO REGISTER

Email: UKSUG@pbprojects.co.uk
Telephone: +44 (0)20 8421 7557

ACCOMMODATION

Rooms are available at the nearby City Grange hotel at the group rate of £155 + VAT including buffet breakfast. To reserve a room contact the hotel direct on Tel: +44 (0)20 7863 3700 or email city.reservations@grangehotels.com and quote code: **161017PB**. Deadline to take advantage of this rate is **Monday 25 September 2017**.

VENUE AND TRAVEL DETAILS

America Square Conference Centre,
1 America Square,
17 Crosswall,
London
EC3N 2LB

GETTING THERE:

Bus: Minories: 15, 42, 78, 100.
Fenchurch Street: 40

Underground: Tower Hill – 1 min walk (District, Circle and Docklands Light Railway) On leaving Tower Hill tube station by walking straight out of the exit, turn right and walk for 100 metres past the Grange City Hotel and under the overhead train line bridge where you should turn right into Crosswall. The entrance to America Square Conference Centre is 50 metres on your right through the revolving doors.

Tower Gateway Aldgate

Driving: There is no parking at America Square. Information on the nearest public car parks is available at NCP Parking. 4 hour Pay & Display parking spaces are available in the area.

	DATA MANAGEMENT TRACK LUDGATE ROOM	MANAGEMENT/IQ TRACK WALBROOK ROOM
08:30	REGISTRATION AND COFFEE	
09:00	Welcome – UKSUG Partners’ Speed Dating Session Exhibitors moment to introduce themselves, say what they do and why you should drop by their stand and speak to them.	
09:15	XOLTP – part 1 Presenter: Jeff Tallman, ASE Product Expert, Hana Platform P&D Syb Prod Mgmt This session focuses on an overview of XOLTP requirements, common solutions and introduces ASE MemScale. Part 1 looks at core hardware optimizations such as Transactional Memory and one of the biggest problems in scalability – cache contention. 10:35 – 5 minute comfort/coffee break XOLTP – part 2 Part 2 will focus on XOLTP requirements driving query performance/query latency with ASE MemScale options such as SNAP (aka compiled queries), Latch Free B-Tree, and MVCC.	SAP Data Warehousing strategy IQ New Innovations and Roadmap Presenter: Volker Stoeffler, Consultant, DB-TecKnowledgey
10:00		A Small Step into BigData: How to Load and Analyze Open Data with SAP IQ Presenter: Volker Stoeffler, Consultant, DB-TecKnowledgey Using Open Data, this session outlines and demonstrates the capabilities of SAP IQ in handling very large sets of structured data. It covers database population with mass data, ad-hoc evaluations against that data and background information about how and why the data structures in IQ enable speed and scalability.
10:40		Automated Data Protection & Data Management for SAP ASE Environments Presenter: Ralf Bogner, Senior Pre Sales Engineer EMEA, SEP Software AG The SAP certified Hybrid Backup and Disaster Recovery solution SEP sesam fully protects SAP landscapes. With the latest release Tigon, SAP ASE data protection and data management is now part of the backup solution which has more than 15 years experience in protecting SAP systems. During a short demo, you will learn how to backup SAP ASE databases and see SEP’s bare metal recovery capabilities for Windows and Linux platforms for mission critical SAP systems and hear how the management of protected data in hybrid IT environments and the data center readiness works.
11:00	COFFEE AND PARTNER EXPO	
11:20	Sixty Shades of SQL Presenter: Rob Verschoor, Vice President & Global Database Migration Lead, SAP Database & Technology In this session Rob will look at the SAP Advanced SQL Migration tool in detail. He will then discuss ways of using SQL it probably wasn’t designed for....	
12:30	SAP HANA Accelerator for ASE Presenter: Neil Whitehead, Director, Global Centre of Excellence, SAP Learn how utilising SAP HANA as a performance side car you can quickly supercharge your existing SAP ASE reporting requirements with virtually no changes to the code. In addition learn and see demonstrations of how you can quickly and easily enhance existing applications to leverage the various engines within SAP HANA to add geospatial, time series and predictive capabilities. Furthermore learn how using this approach you can quickly adopt SAP HANA into your heterogeneous environment to seamlessly consolidate data to drive your business.	
13:00	LUNCH AND PARTNER EXPO	
13:45	UKSUG AGM Business	
14:00	The Science of DBMS: Data Storage & Organisation Presenter: Jeff Tallman, ASE Product Expert, Hana Platform P&D Syb Prod Mgmt Today, data storage is impacted by data encryption as well as data compression as companies need to ensure the security of data as well as manage costs. This session takes a look at how these techniques are implemented across common DBMS solutions and the impacts on performance that such implementations cause. Pro’s and con’s of the different techniques will be discussed as best practices to minimize impacts on applications, with specific recommendations for ASE with respect to data/index compression or data encryption.	Towards Zero Downtime in your Digital Architecture – with SUSE and Sybase ASE Presenter: Alan Clarke, SAP Alliance Manager & Stephen Mogg, SUSE Pre-Sales Lead In the digital age downtime isn’t an option. Whether planned downtime for SAP database, or the more unpredictable unplanned downtime from system failures or even natural disasters, your business is incurring productivity or financial losses. You’re under pressure to deliver more up-time in the data center to stay competitive and meet customer demands. Join our 20-minute discussion and learn how you can minimize your server downtime, maximize your service availability and build a digital infrastructure that keeps SAP systems running 24x7, 365 days a year.
14:20		ASE Operations at SAP IT with a focus on Security Presenter: Ralf Zenker, IT Technology Senior Consultant, Business Innovation & IT IT Systems & Application Operations Business Infrastructure Operations Database Management This session will focus on how ASE operations at SAP IT are managed. Ralf will share experiences about current and future measures to lock down ASE in SAP ASE for Business Suite use cases. Based on the lifecycle of an ASE we will explain how certain operation topics e.g. system installation & hardening, patch management, HA/DR, automation and security compliance checks are covered.
SAP ASE 16 SPO3 LAUNCH PARTY		
15:00	WELCOME AND TEA	
15:10	Keynote – SAP’s Database and Data Management Strategy Presenter: Chris Hallenbeck, SVP, EMEA Database and Data Mgmt GTM Chris Hallenbeck is the global head of SAP’s Database & Data Management Go-to-Market & Innovation organization. In this role, Chris works closely with customers to help them gain competitive advantage in the digital era, and collaborate with SAP’s development organization to ensure we are designing products and services that give our customers the technical agility to achieve their goals.	
15:40	SAP ASE Case Study Presenter: Reinoud Reynders, IT Manager infrastructure & operations, UZ Leuven UZ Leuven is the largest Healthcare provider in Belgium. Running exclusively on SAP ASE, they have developed their own Electronic Patient Record (EPR) system which they offer to other hospitals as an SAAS solution. This presentation will focus on how SAP ASE helps to address the big challenges of uptime, availability, scaling and flexibility. Reinoud will also discuss how they perform upgrades and carry out pre-production testing.	
16:00	SAP ASE 16 SPO3 Launch highlights, Beta Customer feedback and Roadmaps (ASE, Replication Server) Presenter: Sumit Kundu, VP Product Management, Databases and Data Management, Platforms and Innovation This session will introduce you to the exciting new features in the latest release of ASE 16 to enable extreme transaction processing supporting next generation OLTP applications. Get updated with performance benefits seen in beta and SAP lab environments from the latest innovations in ASE and hear about how you can benefit from use of ASE both on premise and in the cloud. This presentation kicks off the journey with ASE 16 SPO3!	
16:45	LAUNCH PARTY RECEPTION AND NETWORKING	
18:30	CONFERENCE CLOSE
